## **Course Information**

JavaScript is a lightweight, interpreted programming language. It is designed for creating network-centric applications. It is complementary to and integrated with Java. JavaScript is very easy to implement because it is integrated with HTML. It is open and cross-platform.

This is a two-month course. With this course, you will be able to build amazing real-world applications on your own.

#### Goals

- Provide an understanding of the role computation can play in solving problems.
- Provide a skill-set to compete for professional-level application building

#### **Textbook**

We will not follow any textbook, but follow the course outline provided by the instructor.

## **Problem Sets and Quizzes**

Each problem set will involve programming in Javascript. There will be 6 problem sets in the course. There will be a graded quiz at the start of the lecture (topics we covered on the previous day) and at the end of the lecture (topics we covered on that day)

Assignments will be given to the students every Sunday and students have to submit them next Saturday before class.

The final project will be assigned to the students individually after completing two months of javascript training.

## **Grading Policy**

Grades will be roughly computed as follows:

ACTIVITIES	PERCENTAGES
Problem sets	30%
Completion of mandatory finger exercises	10%
Midterm Quiz	20%
Final Quiz	40%

# Calendar

d a y #	TOPICS	ASSIGNMENTS
1	a. What is JavaScript? b. Client-Side JavaScript c. Advantages of JavaScript d. Limitations of JavaScript e. JavaScript Development Tools f. Where is JavaScript Today?  2. JAVASCRIPT - Syntax a. Your First JavaScript Code b. Whitespace and Line Breaks c. Semicolons are Optional d. Case Sensitivity e. Comments in JavaScript  3. JAVASCRIPT - Enabling a. JavaScript in Internet Explorer b. JavaScript in Internet Explorer b. JavaScript in Internet Explorer d. JavaScript in Opera e. Warning for Non-JavaScript Browsers  4. JAVASCRIPT - Placement a. JavaScript in <a href="https://example.com/body-section">https://example.com/body-section</a> b. JavaScript in <a href="https://example.com/body-section">https://example.com/body-section</a> c. JavaScript in <a href="https://example.com/body-section">https://example.com/body-section</a> c. JavaScript in External File e. Defer in script f. Async in script  5. JAVASCRIPT - Variables a. JavaScript Variables b. JavaScript Variable Scope d. JavaScript Variable Names e. JavaScript Variables a. What is an Operator? b. Arithmetic Operators c. Comparison Operators d. Logical Operators e. Bitwise Operators e. Bitwise Operators f. Assignment Operators g. Miscellaneous Operators g. Miscellaneous Operators	<ol> <li>1. 1 quiz</li> <li>2. 1 assignment</li> </ol>
2	JAVASCRIPT – If-Else     a. FlowChart of if-else	1. 2 quiz

	b. if Statement	2. 1 assignment
	c. ifelse Statement	2. 1 4351911116116
	d. ifelse if Statement	
2	JAVASCRIPT - Switch-Case	
۷.	a. Flow Chart	
2	JAVASCRIPT – While Loop	
Э.		
	a. The while Loop	
4	b. The dowhile Loop	
4.	JAVASCRIPT – For Loop	
_	a. The for Loop	
	JAVASCRIPT – For-in Loop	
6.	JAVASCRIPT - Loop Control	
	a. The break Statement	
	b. The continue Statement	
	c. Using Labels to Control the Flow	
7.	JAVASCRIPT - Functions	
	a. Function Definition	
	b. Calling a Function	
	c. Function Parameters	
	d. The return Statement	
	e. Nested Functions	
	f. Function () Constructor	
	g. Function Literals	
	a. What is an Event?  b. onclick Event Type	2. 1 assignment
	b. onclick Event Type	
	c. onsubmit Event Type	
	d. onmouseover and onmouseout	
	e. HTML 5 Standard Events	
2.	JAVASCRIPT - Cookies	
	a. What are Cookies?	
	b. How Does It Work?	
	<ul><li>b. How Does It Work?</li><li>c. Storing Cookies</li></ul>	
	c. Storing Cookies d. Reading Cookies	
	<ul><li>c. Storing Cookies</li><li>d. Reading Cookies</li><li>e. Setting Cookies Expiry Date</li></ul>	
3.	<ul><li>c. Storing Cookies</li><li>d. Reading Cookies</li><li>e. Setting Cookies Expiry Date</li></ul>	
3.	c. Storing Cookies d. Reading Cookies e. Setting Cookies Expiry Date f. Deleting a Cookie  JAVASCRIPT - Page Redirect	
3.	c. Storing Cookies d. Reading Cookies e. Setting Cookies Expiry Date f. Deleting a Cookie  JAVASCRIPT - Page Redirect a. What is Page Redirection?	
3.	c. Storing Cookies d. Reading Cookies e. Setting Cookies Expiry Date f. Deleting a Cookie  JAVASCRIPT - Page Redirect	
3.	c. Storing Cookies d. Reading Cookies e. Setting Cookies Expiry Date f. Deleting a Cookie  JAVASCRIPT - Page Redirect a. What is Page Redirection? b. JavaScript Page Refresh c. Auto Refresh	
	c. Storing Cookies d. Reading Cookies e. Setting Cookies Expiry Date f. Deleting a Cookie  JAVASCRIPT - Page Redirect a. What is Page Redirection? b. JavaScript Page Refresh c. Auto Refresh d. How Page Redirection Works?	
	c. Storing Cookies d. Reading Cookies e. Setting Cookies Expiry Date f. Deleting a Cookie  JAVASCRIPT - Page Redirect a. What is Page Redirection? b. JavaScript Page Refresh c. Auto Refresh d. How Page Redirection Works?  JAVASCRIPT - Dialog Box	
	c. Storing Cookies d. Reading Cookies e. Setting Cookies Expiry Date f. Deleting a Cookie  JAVASCRIPT - Page Redirect a. What is Page Redirection? b. JavaScript Page Refresh c. Auto Refresh d. How Page Redirection Works?  JAVASCRIPT - Dialog Box a. Alert Dialog Box	
	c. Storing Cookies d. Reading Cookies e. Setting Cookies Expiry Date f. Deleting a Cookie  JAVASCRIPT - Page Redirect a. What is Page Redirection? b. JavaScript Page Refresh c. Auto Refresh d. How Page Redirection Works?  JAVASCRIPT - Dialog Box a. Alert Dialog Box b. Confirmation Dialog Box	
4.	c. Storing Cookies d. Reading Cookies e. Setting Cookies Expiry Date f. Deleting a Cookie  JAVASCRIPT - Page Redirect a. What is Page Redirection? b. JavaScript Page Refresh c. Auto Refresh d. How Page Redirection Works?  JAVASCRIPT - Dialog Box a. Alert Dialog Box b. Confirmation Dialog Box c. Prompt Dialog Box	
4.	c. Storing Cookies d. Reading Cookies e. Setting Cookies Expiry Date f. Deleting a Cookie  JAVASCRIPT - Page Redirect a. What is Page Redirection? b. JavaScript Page Refresh c. Auto Refresh d. How Page Redirection Works?  JAVASCRIPT - Dialog Box a. Alert Dialog Box b. Confirmation Dialog Box
